

CIGLR Summit • A.I. Horizons:  
How machine learning and artificial intelligence will shape Great Lakes observations,  
modeling, and forecasting in the coming decade

## Attendees

22-23 July 2024

Samuel T. Dana Building

University of Michigan

Ann Arbor, MI

Hazem Abdelhady	he/him/his	University of Michigan CIGLR	huhady@umich.edu
Jennifer Boehme		Great Lakes Observing System	Jennifer@glos.org
Bill Currie		University of Michigan SEAS	wcurrie@umich.edu
Lindsay Fitzpatrick		University of Michigan CIGLR	ljob@umich.edu
Nathan Fox		MIDAS	foxnat@umich.edu
Lauren Fry		NOAA GLERL	lauren.fry@noaa.gov
Drew Gronewold		University of Michigan	drewgron@umich.edu
Yi Hong		University of Michigan CIGLR	yhon@umich.edu
Haoguo Hu		University of Michigan CIGLR	hghu@umich.edu
Dani Jones	they/them	University of Michigan CIGLR	dannes@umich.edu
Anders Kiledal	he/him/his	University of Michigan Earth and Environmental Sciences	kiledal@umich.edu
Jing Liu		University of Michigan	ljing@umich.edu
Phanikumar Mantha		Michigan State University	phani@egr.msu.edu
Lacey Mason		NOAA GLERL	lacey.mason@noaa.gov
Silvia Newell	she/her/hers	Michigan Sea Grant	senewell@umich.edu
Sage Osborne	they/them	NOAA PMEL	sage.osborne@noaa.gov
William Pringle		Argonne National Laboratory	wpringle@anl.gov
Paul Roebber		University of Wisconsin - Milwaukee	roebber@uwm.edu
Satbyeol "Joy"Shin	she/her/hers	University of Michigan	satshin@umich.edu
Scott Steinschneider		Cornell University	ss3378@cornell.edu
Andrea (AJ) Vander Woude	she/her/hers	NOAA GLERL	andrea.vanderwoude@noaa.gov
Jia Wang		NOAA GLERL	jia.wang@noaa.gov
David Wright	he/him/his	NOAA GLERL	david.m.wright@noaa.gov
Alisa Young		NOAA GLERL	alisa.young@noaa.gov
